PROFILE

A highly motivated Physical Science undergraduate from the University of Kelaniya (completed final year examinations) with a strong foundation in Computer Science, Pure Mathematics, and Physics. Skilled in Java, C, C#, JavaScript, Kotlin, and full-stack web development. Experienced in object-oriented programming, database management using SQL and MongoDB, and Android application development. Familiar with modern development tools such as VS Code, Visual Studio, IntelliJ IDEA, and Android Studio. Seeking a Software Engineering Internship to apply technical knowledge, enhance practical skills, and contribute to real-world software development projects.

EDUCATION

- Bachelor of Science in Physical Science**

University of Kelaniya | 2023–2026

Subjects: Computer Science, Pure Mathematics & Physics | Database Systems, Linear Algebra, Algorithms, Data Structures, Software Development Life Cycle, Web Development, Mobile Application Development & Full-Stack Development.

- GCE Advanced Level – Physical Science Stream**

Mo/Siyambalinduwa National School-Syambaladuwa

PROJECTS

- Online Education Platform | Individual Project | 2026**

Developed a full-stack online education platform using MySQL, MongoDB, Express.js, React.js, and Node.js (MERN stack). Implemented secure user authentication and role-based access control for students, teachers, and administrators. Built core features including course management, quizzes, assignments, and student progress tracking. Developed responsive and user-friendly React.js frontend interfaces and integrated RESTful APIs for efficient and scalable data management. Gained strong practical experience in full-stack web development, database management, and web application deployment.

[Git Repository](#)

- Inventory Management System | Individual Project | 2026**

Developed a web-based Inventory Management System to efficiently manage products, stock levels, and inventory operations. Implemented CRUD functionalities for product and inventory management with database integration for reliable data storage and retrieval. Designed a user-friendly interface and applied a layered architecture to improve maintainability and business logic organization. Used GitHub for version control while strengthening skills in full-stack development, database integration, and application design.

[Git Repository](#)

- Cinema Management System | Team Project: | 2025**

Designed and developed a Cinema Management System to manage movie schedules, ticket bookings, and customer information. Built RESTful APIs using Java and Spring Boot for handling movies, showtimes, seat availability, and reservations. Integrated MySQL for structured storage of users, bookings, and payments. Developed a responsive frontend using React, HTML, CSS, and JavaScript for browsing movies and seat booking. Implemented role-based access for admins and users, and tested APIs using Postman. Strengthened skills in full-stack development, database design, and API integration using GitHub for version control.

[Git Repository](#)

EXTRA CURRICULAR ACTIVITIES

- President of Astronomy & Space Science Associations- University Of Kelaniya
- Assistant Coordination Mathematics Students' Society (MSS) - University of Kelaniya
- Committee Member of Physical Science Student Association

SKILLS

Technical Skills

- Application Development (C#,C)
- Mobile Application Development (Java)
- Web Development (HTML, CSS, JavaScript, PHP , Joomla)
- Familiar DBs (MySQL, XAMMP)
- Software Development(.NET)

Soft Skills

- Teamwork
- Communication Skills
- Time Management
- Work under pressure

CERTIFICATIONS

- Web Design- University of Moratuwa (On going)
- Web Design -University of Kelaniya
- JavaScript-Udemy
- Python Programing -Udemy (on going)
